Hillcrest Elementary Gets a Weather Bug!!

Posted by Kellie Roring under For Buyers, For Sellers, For Realty Professionals, General Information, Kellies--Just Me!

Hillcrest Elementary Gets a Weather Bug!!

Thanks goes out to the Hillcrest PTA and Principal Darrin Johnson!!!!. Beverly Soutas, the current PTA President at Hillcrest, Debbie Lamb last years PTA President and Darrin Johnson(Principal) have been working hard to get this new WeatherBug feature at Hillcrest and 2 weeks ago it was installed. This is such a cool thing for the students that attend Hillcrest Elementary. Please click on the Weatherbug link and find Hillcrest school to see the current temperature and other interesting information. www.weatherbug.com

WeatherBug weather data is powered in real-time by over 8,000 WeatherBug® Tracking Stations located at schools across the United States. Weather data and camera images are used by more than 100 television stations across the country.

That same data feeds into classrooms where students use it to learn science, math, geography and technology.
